

CRACKING FURNACES COURSE

September 25-27, 2024

Sugar Land, TX (I-CFC)

A promotional banner for the 'Cracking Furnaces Course'. On the left, a dark blue vertical bar contains the text 'SUGAR LAND, TX SEPT. 25-27, 2024' and 'Cracking Furnaces Course' in white. The main banner area has a light blue background with various geometric icons (circles, triangles, squares, lines) and text: 'REGISTRATION IS NOW OPEN', 'Early Bird Discount ends August 23, 2024', 'VISIT', 'HTTPS://WWW.APEXPETROCONSULTANTS.COM/ETHYLENE-TRAINING.HTML', and 'Click "REGISTER NOW" button'.

Course content covered over 3 days: provides comprehensive coverage of ethylene plant cracking furnaces with special emphasis on process operation, control, and troubleshooting. The course provides an excellent opportunity to develop working knowledge that can promote efficient, reliable, and trouble-free operations and a complete understanding of the process.

Easy to follow for those new to the industry and serves as a comprehensive refresher and update for experienced professionals involved in ethylene furnaces, manufacturing, and businesses. The course offered is practical and down-to-earth and for a wide

Benefits of Course

- ✓ Understanding Cracking Process Technology
- ✓ Gain Insights into the Overall Performance, Cracking Yields
- ✓ Understanding Key Components and Performance Parameters
- ✓ Learn about Optimum Process Operation, Monitoring and Control
- ✓ Understanding Furnace Safety
- ✓ Help Achieve Reliable, Safe & Trouble-free Operation

Who Should Attend

- ✓ Furnace/process Engineers
- ✓ Operation Engineers
- ✓ Technical Services
- ✓ Production Supervisors, Engineers
- ✓ Mechanical Engineers
- ✓ Process Control
- ✓ Analysts, Buyers
- ✓ Optimization engineers

CRACKING FURNACES COURSE

September 25-27, 2024

Sugar Land, TX (I-CFC)

range of job functions. The course material, layout, and coverage are based on the instructor's decades of experience.

Receive expert content: You will receive a digital pdf of course material that will be a reference for future use.

The course is presented in an engaging and participative format.

Registration and breakfast start at 7:15 AM on Day One. The course will run for three days, starting daily at 8 AM. Breakfast, coffee breaks, and lunch are included each day.

Course Outline

Overview – Ethylene Manufacturing

Performance & Economic – Feedstock, Yields, Economics

Technology – Cracking Fundamentals

Key Furnace Components– Design, operation, process & environmental Performance

Operation & Process Control – Operating parameters and interdependencies, process control and handles for optimizing operation for improved performance and economics, decoke/start-up/shutdown/emergency operations

Process Safety – key aspects

Furnace Revamps & Troubleshooting

TRAINING

INHOUSE TRAINING

We offer a variety of onsite courses designed together with our clients to meet your specific needs. We can tailor our courses to a specific technology or purpose for your site.

COURSE INSTRUCTOR

The course is conducted by Sanjeev Kapur. He is a leading industry expert in ethylene and cracking furnace technologies. His expertise cover a vast background and hands-on experience in technology know-how, design, engineering, operation, troubleshooting and technical risk evaluation/mitigation. He has contributed a chapter on Ethylene Technology in McGraw Hill's "Handbook of Petrochemical Production Processes" and a section on Ethylene and Propylene for ENI Encyclopedia of Hydrocarbons. He has presented and published over 40 technical articles.
